Subject: AltEn

Hey Dave,

Ex. 5 Deliberative Process (DP)

Lincoln (NE) Journal-Star - Burst tank likely released 4 million gallons of wastewater from troubled ethanol plant – 2/19/21 - Cleanup efforts are continuing after a frozen pipe burst at the troubled AltEn ethanol plant near Mead, releasing wastewater from a 4 million-gallon tank into Saunders County waterways last week. On Thursday, AltEn submitted a plan to recover the discharged waste with the Nebraska Department of Environment and Energy, which is overseeing the task with help from the Environmental Protection Agency. <http://bit.ly/3qCZlJB>
